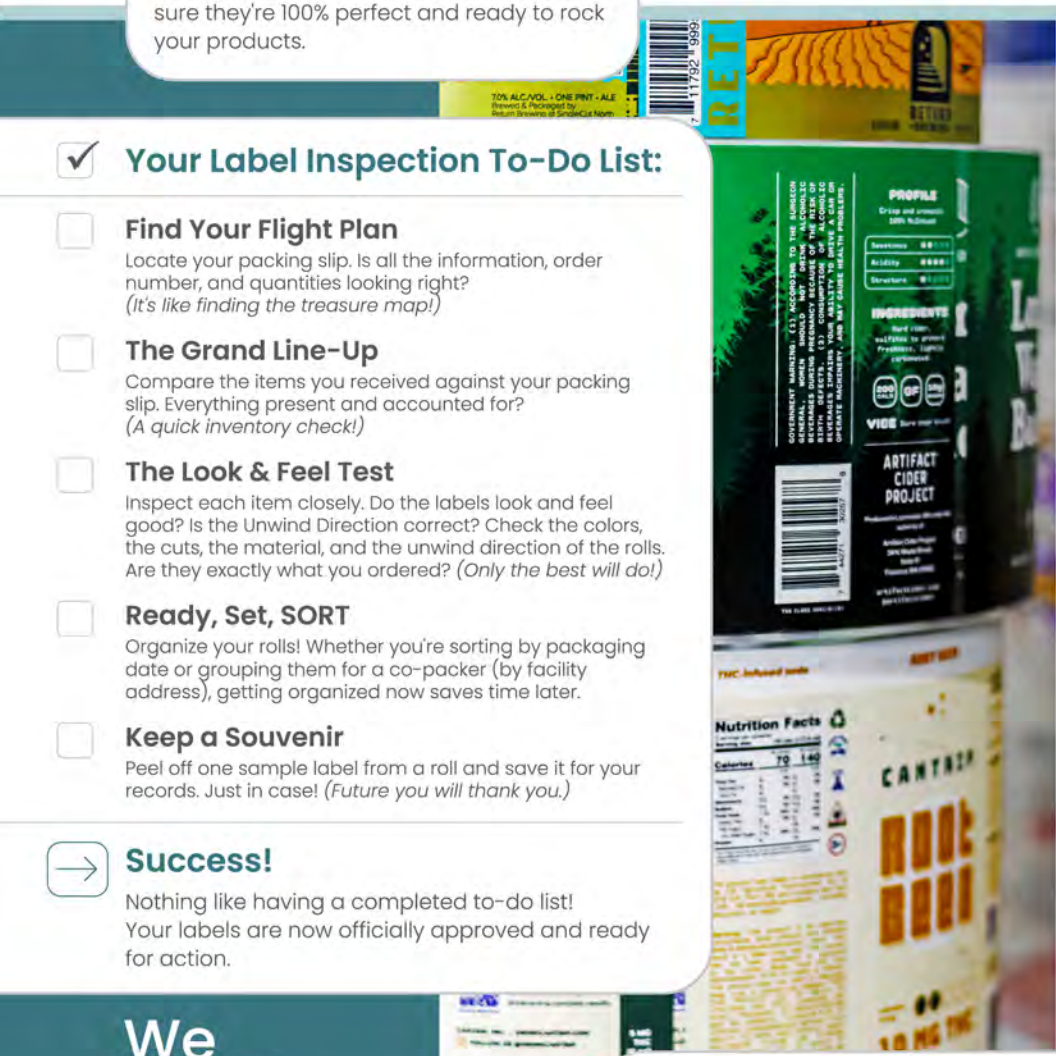
Unboxing Victory:

Your 5-Star Label Check-Up!

Hey there! Your awesome new labels have landed! Let's do a quick, fun check to make sure they're 100% perfect and ready to rock your products.

InTouch LABELS & PACKAGING



Your Label Inspection To-Do List:

- [ ] **Find Your Flight Plan**
  Locate your packing slip. Is all the information, order number, and quantities looking right?
  (It's like finding the treasure map!)
- [ ] **The Grand Line-Up**
  Compare the items you received against your packing slip. Everything present and accounted for?
  (A quick inventory check!)
- [ ] **The Look & Feel Test**
  Inspect each item closely. Do the labels look and feel good? Is the Unwind Direction correct? Check the colors, the cuts, the material, and the unwind direction of the rolls. Are they exactly what you ordered? *(Only the best will do!)*
- [ ] **Ready, Set, SORT**
  Organize your rolls! Whether you're sorting by packaging date or grouping them for a co-packer (by facility address), getting organized now saves time later.
- [ ] **Keep a Souvenir**
  Peel off one sample label from a roll and save it for your records. Just in case! *(Future you will thank you.)*

Success!

Nothing like having a completed to-do list! Your labels are now officially approved and ready for action.

Questions? Concerns?

Don't wait! Contact us ASAP so we can jump right in and make things right. Our team is standing by to help you achieve label victory!
